Action

- NAVSAFECEN receives medical data from the Navy and Marine Corps Public Health Center. This is an approved use of medical data under HIPAA.
- Lists command personnel who received treatment at a MTF or TRICARE provider for any injury or occupational illness that appears to meet the mandated reporting thresholds
- References: OPNAVINST 5102.1D for on-duty and off-duty mishaps.
OPNAVINST 3750.6R for aviation mishaps based on ICD-9 codes

WESS Injury Verification Feed – What It Is and What It Contains

- Transmitted to a person or persons within the command UICs designated by the Command WESS Safety Authority
- Reviewer works with safety, supervisor, and/or injured person to determine whether each individual injury constitutes a reportable mishap
- Reviewer is prompted to take appropriate action to ensure the command submits the required

WESS Injury Verification Feed – How It Works

Subject: Medical Incidents Available - DO NOT REPLY

Copy and paste into browser

New medical incidents are now available for your review. These incidents, logged by a medical department, are from personnel attached to your command.

To review these incidents, copy and paste the URL below into your browser, log into WESS, and select the "Injury Verification" button on the "Select Subsystem" page. Select the appropriate PKI certificate when prompted, and you will be placed on a page where you should see links for "Medical Incidents Acute" or "Medical Incidents Chronic." You will need to click on each of these links and review each medical incident listed under that section by clicking on the individual items.

For each medical incident, review the details to determine if the incident is reportable, then select "Yes" or "No." Once selected, the medical information is removed. The intent of this medical data feed is to provide awareness of the potential need to submit a WESS report and to provide NAVSAFECEN with a more accurate metric of unreported injuries and illnesses.

Medical Incident Folder

Selection Screen

The screenshot shows the SPARC web application interface. On the left is a sidebar with a list of categories and their counts. The 'Medical Incident Acute' category is selected. The main area displays a table of incidents. A red box highlights the first four rows of the table. A red arrow points from a text box to this highlighted area.

Item ID	Category	Date

Review Medical Data

Details - Medical Information	
Claimant Name:	Diagnosis 1:
FirstName503, LastName503 SSN:	V5789
DOB:	Diagnosis 2:
Tuesday, October 03, 1989	84502: Sprain calcaneofibular
Gender:	Diagnosis 3:
F	Diagnosis 4:
Service Date:	Diagnosis 5:
Monday, August 05, 2013	84502: Sprain calcaneofibular
Injury Type:	Injury Site:
SPRAINS AND STRAINS	LOWER LEG AND ANKLE
Type:	
ACUTE	

Work with safety, the supervisor, and/or the involved person to verify medical data, then determine if it is reportable or not.

Sunday, June 12, 1966

Gender: M

Service Date: Friday, August 09, 2013

Injury Type: SPRAINS AND STRAINS

Type: ACUTE

Diagnosis 4:

Diagnosis 5: 8409: Sprain shoulder/arm NOS

Injury Site: SHOULDER/UPPERARM

Is this incident reportable:
☒ Yes ☐ No

Submit Cancel

Select "Yes" or "No"
Then submit

- If **Yes**, file the appropriate OPNAV 5102 or 3750 report
- If **No**, you are complete with that medical review. Return to list and go to the next case if you have more.
